MED GREEN FORUM

MEDITERRANEAN GREEN BUILDINGS AND RENEWABLE ENERGY FORUM 2015

MED GREEN FORUM

MEDITERRANEAN GREEN BUILDINGS
AND RENEWABLE ENERGY FORUM
2015

Mission

Med Green Forum is a World Renewable Energy Congress and Network Forum aimed at the international community as well as Mediterranean countries. The first forum was held in 2010 in France followed by Morocco in 2012 and the third forum will be held in Florence, Italy on 26 - 28 August 2015. The Forum will highlight the importance of growing renewable energy applications in two main sectors: Electricity Generation and the Sustainable Building Sector.

The Mediterranean region was chosen to illustrate the viability of using renewable energy to satisfy all its energy needs and we hope to demonstrate the effectiveness of using renewable energy in these countries to act as a beacon of light for the rest of the world to follow. Renewables are the cornerstones and the foundation of a truly sustainable energy future. Our mission is to promote enabling policies and to further develop a broad range of renewable energy technologies and applications in all sectors – for electricity production, heating and cooling, agricultural applications, water desalination, industrial applications and for the transport sectors leading to A BETTER, CLEANER AND SAFER WORLD.

Forum Topics

1. Sustainable architecture
2. Building construction management and environment
3. Ventilation & air movement in buildings
4. Renewable energies in building & cities
5. Eco materials and technology
6. Policy education & finance
7. Sustainable transport
8. Urban agriculture and soil less urban green
9. All renewable energy topics
